## What's Your Net Worth?

List each personal asset in column 1 on Asset table with the worth of the asset in column 2. Then list each liability in column 1 on Liability table with the amount of the liability in column 2. Total the asset worth and liability amount columns. Subtract your liability total from your asset total to find your net worth. Can you think of ways to increase the value of your net worth?

### Assets

### Liabilities

Type of Asset	Asset Worth	Type of Liability	Liability Amount
<b>Total Assets:</b>		<b>Total Liability:</b>	
<hr/>		<hr/>	
<b>Total Assets</b>		<b>Total Liabilities</b>	
-		=
